Port-congestion, supply chain delays and shortages in labor, equipment and shipping capacity, combined with an increasing demand across the U.S. has caused unprecedented disruptions across the U.S. to multiple product categories.

**Pricing has surged across a variety of sectors attributable to increased demand and restricted supply.**

Energy prices, including gasoline, have gone up. Truck drivers, seaport slots and warehouse spaces are all in short supply, leading to costly delays and rising shipping rates for goods. The added costs, at every step from production to sale, may lead to price increases.<sup>4</sup></p> |
